

Hi, I'm Snowy

I'm a foster lad because I came to BTRF with allergies, poor gut health and age related arthritis.

I have a foster mum and a foster nanny and I will stay with them whilst my amazing care team keep a very close eye on me to make sure I start to feel better.

Snowy is nine years old and he came into the care of BTRF because his owner became very ill and had been unable to care for him for quite some time. Snowy's owner was sad to let him go but knew it was best for him.

Snowy likes to share cuddles with his foster mum or foster nanny, and to potter round the garden in the sunshine.

WHY DOES SNOWY NEED SPONSORING?

Snowy has two masses on his sides that need investigation, his gut health is not great, he has allergies that require ongoing treatment and medication, and he is very sore through his back, knees and hips, likely due to age related arthritic changes.

Snowy will need a more appropriate diet and supplements to support his gut health and allergies.

Your support will help pay for on-going vet bills, medication and age specific food and supplements to help with his allergies, and pain medication for his arthritis whilst he lives his very best life with BTRF in foster care.
