

Hi, I'm Doogal

I'm a 'forever foster' lad because I came to BTRF with [Copper Toxicosis](#).

Because I have CT, I will stay with my foster mum forever and my amazing care team will keep a very close eye on me to make sure I stay well.

Doogal is nine years old and he came into the care of BTRF because his owner could no longer keep him. Doogal's owner was sad to let him go but knew it was best for him.

Doogal is a real chilled out 'cuddle bunny' who is very happy when he has a lap to jump onto for a fuss!

WHY DOES DOOGAL NEED SPONSORING?

Doogal needs to have regular three-monthly blood tests to see how well his liver is coping with the CT.

Doogal has a very special team of vets advising and looking after him because they know a lot about the condition he has. He also needs a specially formulated diet, medication and supplements to support his liver.

Your support will help pay for Doogal's on-going vet bills, his regular blood tests, medication and specialist food whilst he lives his very best life with BTRF in foster care.
